

Internship Task 2: Data Visualization & Storytelling

Superstore Sales — Turning transactions into business decisions

- Revenue base: \$2,261,537 across 4,922 orders and 793 customers.
- Growth story: sales reached 722,052 *in* 2018, *versus* 479,856 in 2015.
- Category leader: Technology contributes \$827,456.
- Regional leader: West contributes \$710,220.
- The dashboard focuses on trends, concentration, comparison and actionable business context—not just decoration.

Recommended business actions

1. Protect and scale the strongest category and region.
2. Investigate weaker regions for product mix and customer opportunities.
3. Track the annual trend regularly to identify acceleration or slowdown early.
4. Use segment-level performance to tailor offers and retention strategies.
